More Than a Century of Experience

We've built our reputation and set the standard in pest management for more than a century. Founded in 1901, Orkin serves more than 1.7 million customers through more than 400 locations across the world. That's why more businesses in North America – including multi-family properties like yours – trust Orkin with their reputations than any other pest management provider.

Award-Winning Training

No pest control company puts as much into training its pest specialists as we do. Orkin is consistently recognized on *Training* magazine's prestigious Top 125 list and has been featured among the magazine's Editor's Choice honorees. The bottom line: you can rest assured you're getting the latest and most effective pest management techniques delivered by a knowledgeable expert.

As the most respected pest management provider in the country, Orkin provides the reliability you can trust and the flexibility to make your job easier. That's because when you choose Orkin, you receive more than just pest control — you get the expertise, communication and resources valued by our property management customers nationwide.

5 SIMPLE REASONS TO CHOOSE ORKIN

1 TRUSTED

Pest management is an important component of brand and reputation protection. That's why more businesses in North America trust Orkin with their reputations than any other pest management provider.

2 SECURE

All Orkin Commercial Specialists are screened and randomly drug tested, so you can have complete confidence in The Orkin Man™.

3 RELIABLE

Scheduled service when you need it, provided by the best-trained pest specialists in the industry, so the job will be done right. If you need us between service visits, we're there within 24 hours, guaranteed.

4 FLEXIBLE

We can work around your schedule so we're there when you need us and out of your way when you don't.

5 CONSISTENT

Have multiple properties? Rest easy. Orkin provides consistent service from location to location.

Effective Multi-Family Pest Management is Challenging — but Crucial

You work hard to protect your property's reputation and attract residents. Once people move in, you work just as hard to keep them happy. Having pests in the picture makes all of this a lot harder.

More than just a nuisance

- Pests can carry and spread diseases, contaminate food or even cause expensive structural damage.
- Pests infestations can hurt your property's reputation and even help lead to unwanted media attention or worse.

Pest management in multi-family settings can be a real challenge

- Many properties offer food, water, shelter and optimal temperatures — everything pests need.
- You can't regulate everything that goes on within your individual units, and unsanitary conditions in one unit can attract pests that can spread all over the complex.
- Frequent arrivals of new residents can bring new pest challenges and make it difficult to keep everyone on the same page about housekeeping and pest control.
- Pool and community areas and waste disposal areas can attract the very pest problems you're trying to avoid.
- Landscaping and structural elements can attract pests.

On top of all this: residents expect a pest-free environment, and when they see a pest, they expect an immediate resolution.

The good news is Orkin can help.

AIM: Assess. Implement. Monitor

Effective pest management is a process, not a one-time event. Orkin's Integrated Pest Management (IPM) approach is a collaborative and ongoing cycle of three critical activities that help keep pests in their place.

Based on your property's needs, we will work with you to create a customized plan.

Assess

First we inspect, identify, and evaluate all the underlying reasons pests infest your property.

Comprehensive inspections

We detect any sanitation issues or structural conditions conducive to pests.

Identification of pest activity

We examine and report any evidence of pest infestation.

Risk evaluation

We consider your property type, geography and any conditions conducive to pest activity.

Implement

Cookie-cutter pest management solutions are ineffective. Your Orkin Commercial Pest Specialist continually works with you to develop a customized solution.

Focus on prevention

When we can, we start with exclusion, sanitation and other non-chemical options.

Environmentally responsible

If a product is needed, your Orkin Commercial Pest Specialist selects the most effective treatment with the least impact on the environment.

Sanitation consultation

Your Orkin Commercial Pest Specialist will consult with you to make sure your cleaning, facility maintenance and exclusion efforts make a real impact on potential pest "hot spots."

Monitor

Year-round monitoring, documentation, and communication help to ensure the ongoing effectiveness of your service.

Ongoing protection

During regular service inspections, your Orkin Man™ monitors for signs of pest activity, looks for pest-conducive conditions, and ensures that your program is working.

Documentation and communication

After each service, your Orkin Commercial Pest Specialist documents all services performed, pest activity and any other recommendations.

More Than Just Great Pest Control

Partnership is critical to an effective IPM program, and Orkin prides itself on keeping open lines of communication with you, your staff and your residents. We document all services provided by your Orkin Commercial Pest Specialist, operations management, support staff and quality assurance professionals, and we check in with your staff on an ongoing basis.

We Help Make Your Residents Part of the Solution

Because pest management in multi-family properties relies heavily on resident cooperation, we try to help make them part of the solution, too. As an Orkin client, you'll have access to resources you can share with your residents, including:

- Educational pest-related articles for your property's newsletter.
- Monthly pest "tip sheets" that can be posted on residents' doors or in common areas.
- All educational resources can be downloaded from www.orkincommercial.com.

To enhance our knowledge, we immerse ourselves in the industries we serve. Industry media turn to us for our pest management expertise, and as members of the **National Association of Residential Property Managers**, the **National Apartment Association**, and the **U.S. Green Building Council**, we strive to stay ahead of trends and issues in your industry so we can continue to offer you the kind of thoughtful service you deserve.
