

Orkin Termite Protection Help Protect Your Company's Assets & Reputation

Termites may be small, but the cost of a termite infestation can be huge. That's why many businesses rely on Orkin Termite Protection. Orkin has the best-trained Commercial Termite experts in the industry – trained on the latest high-tech equipment designed to detect and monitor termite activity, including acoustic emissions detectors, infrared cameras, Termatrack™ and moisture meters. Plus, Orkin offers a multitude of treatment options, including environmentally-friendly methods, to help protect your business.

Why You Need Orkin Termite Protection

Financial Impact

Termites can eat away at your profits by causing structural damage and damage to raw materials and inventory. A termite infestation could also disrupt operations, costing you customers and considerable lost revenue if your business is closed for treatment.

Constant Risk

Termites can quickly adapt to changing environments. Major systems, such as plumbing, installed in most businesses today can often allow termites to live in the adjacent soil year round. A typical commercial property can support multiple active colonies – and each colony may contain up to a million termites.

Unseen Threat

Termites cannot always be seen because they feed undetected. Termite workers attack the wood from the inside out. Infestations can go undiscovered until the wood is almost completely destroyed – at which point the cost to repair or replace the damage can be extensive.

Comprehensive Treatment

EFFECTIVE

Regardless of the termite species threatening your bottom line, Orkin offers efficient treatment methods that get to the root of the problem.

CUSTOMIZED

Based on a thorough inspection, Orkin will recommend the most effective termite treatment options for your business.

EFFICIENT

Treatments provide ongoing protection to fight current termite activity and help deter further infestations.

Ongoing Protection

We provide you with peace of mind, quality assurance and a dedicated team of experts to help ensure your complete satisfaction with Orkin's termite service.

- **Quality Assurance Inspection.** A member of our quality systems team inspects your business after your initial termite treatment to ensure that it meets our consistent, high quality standards.
- **Ongoing Inspections.** We evaluate your facility once a year, or as requested, to ensure an infestation has not re-occurred.*
- **Re-Treat and Repair Guarantee.** If termites return and damage your business after treatment, we'll re-treat and, depending on your agreement, repair the damage at no additional charge. And, this guarantee will not be cancelled by Orkin as long as you meet your customer obligations.*
- **Money-Back Guarantee.** Orkin Termite Protection provides you effective, ongoing termite protection for peace of mind now and in the future. If you're not completely satisfied, we guarantee to refund your initial treatment charge and any prepaid renewal.*

**See agreement for details, terms and limitations.*
